SECURITY ENHANCEMENT OPTIONS

Innovative Security Solutions When Customers Need it Most

We understand that security means both protection and peace of mind. STANLEY Access Technologies is committed to engineering solutions that stay ahead of the latest trends and technologies through visionary thinking, careful design and superior craftsmanship.

OPTIONS FOR ENHANCED SECURITY

Armored Strike Retrofit Kit

- Application for bi-parting automatic doors currently utilizing standard 4-lamination lock with 2-point locking
- The 8-ply laminated stainless steel bolt and armored strike

Lock Guard

- Tamper-resistant hardware and 16 gauge stainless steel wrap offers robust security at the door
- When engaged, stainless steel hook-shape deadbolt prevents sliding motion of door panels
- Use with Armored Strike Retrofit Kit

Security Strobe

- Visual deterrence to enforce unauthorized entry during business off-hours
- Exterior mounted, triggered by the automatic doors exterior motion sensor
- When triggered, the super-LED strobes flash in a registered CometFlash® 75 pattern
